

Systems Advisory Services

Manufacturing/Materials Management Software Consultant San Francisco Bay Area or Pacific Northwest

Systems Advisory Services, a leading West Coast consulting firm providing business information system services to middle market companies, is searching for qualified candidates for openings in our SYSPRO manufacturing software implementation practice.

Our company implements ERP software systems for manufacturing clients, typically growing, dynamic “mid-market” companies in electronics, life sciences/medical device, food, and industrial products industries.

Our success in selling and implementing SYSPRO has placed us as one of the leading SYSPRO consulting organizations in the US. We are now seeking to add to our dedicated team of professionals to provide high quality business and manufacturing services to our many clients.

Job Duties:

- Work with our experienced consulting team in all facets of the implementation process including requirements definition, SYSPRO design/configuration, conference room pilot, data conversion, user training and go-live cutover activities.
- Become an expert with SYSPRO – SAS will supply all necessary training.

Requirements:

- Hands-on work experience as a materials management, production control, inventory, and/or cost accounting professional.
- 2-4 years experience with a manufacturing and distribution ERP system. Examples of ERP systems that provide this experience include, but are not limited to: SYSPRO, Epicor, Dynamics AX, IFS, Infor, JDE, as well as others.
- APICS certification or course work is a plus.
- Experience with report writers is desired.
- Strong communication skills are required
- Candidate must reside in the greater Bay Area region or the Portland/Seattle area in order to effectively serve our client base. Moderate West Coast travel will be required.

Since 1990 SAS has helped hundreds of middle market companies achieve their business goals and maximize the value of their software investment.

If you feel you can become part of a team of business software experts and challenge your skills working with fast-paced middle market companies, send us your resume.

Starting salary range for this position is \$75,000-\$100,000, plus bonus. We offer an excellent and comprehensive benefit package including: medical, dental, and vision insurance, paid vacation and a 401(k) program.
