

riteSCAN® Mobile Warehouse for SYSPRO™

Smart. Simple. Seamless.

"After implementing riteSCAN in our facility, we are projected to save 1,196 man hours in inventory transfers and 166 man hours in receiving over the first 12 months."

- Shannon Cassidy, Solatube International, Inc.

"riteSCAN has effectively changed and improved the way we handle our inventory at Samson. Instant visibility of real-time inventory really makes our shippers' jobs a lot less complex, much easier, and more enjoyable."

- James Veldman, Samson Rope Technologies, Inc.

"riteSCAN install and implementation was quick and easy. The system just worked as you would expect right out of the box. Training of our employees took less than 30 minutes; and once the system came online, our inventory accuracy (both on-hand quantities and locations) jumped to almost 99% within 30 days."

- Andrew, Pacifica Foods

Why do SYSPRO™ users trust riteSCAN®?

Real-time data access: riteSCAN® seamlessly extends the power of SYSPRO™ to the warehouse floor in real time. Data instantly flows from riteSCAN to SYSPRO using e.net technology—all with a simple barcode scan.

Accurate, streamlined warehouse and inventory transactions: riteSCAN's smart, built-in functions streamline operations, reduce errors, and achieve greater inventory control. This easy-to-use solution supports everything from inventory transfers and queries to sales order picking and purchase order receipts. Users love its simplicity.

Works right out of the box! This commercial-grade software offers the best of both worlds—it is ready to use right away, but can be quickly customized. Better yet, riteSCAN is updated regularly to ensure ongoing, uninterrupted SYSPRO compatibility.

Fast implementation: riteSCAN can be installed and set up in less than 2 hours.

Device independence: riteSCAN can be used in a variety of environments—including computer workstations, touch screens, and hand-held mobile devices.

First-rate service and support: riteSOFT offers convenient access to responsive technical support and regular product enhancements to meet your changing needs.

Used worldwide across a wide variety of industries—from food to biomedical and auto to aerospace and more.
